## Welcome to Novadata

*Driven by excellence...*

Thank you for viewing this product brochure. This has been designed to help make ordering from Novadata easier and more convenient.

You can order all the products in this brochure online, via email, fax or simply call 01376 552999 and a member of our helpful team will be happy to help you place your order with us.

As well as a huge range of products, Novadata can assist you with all your transport training requirements, tachograph analysis and other compliance needs. Full details can be found towards the end of this brochure.

When it comes to transport compliance we can help you every step of the way.

We look forward to assisting you.

**Please note prices do not include VAT and delivery charges.**

## How to Order

For new customers, placing orders with Novadata couldn't be easier. You can place your order by phone, fax, mail or email or via our website [www.novadata.co.uk](http://www.novadata.co.uk).

 **By Phone** 01376 552999

 **By Fax** 01376 550567

 **By Mail** Novadata  
3 Blackwell Drive  
Braintree  
Essex  
CM7 2QJ

 **By email** [sales@novadata.co.uk](mailto:sales@novadata.co.uk)

All orders should be accompanied by a cheque or by completing the credit card section, except for existing credit account holders.

NB  
Novadata reserves the right to discontinue lines without notice. Some products illustrated and described may vary slightly from the products you receive. Novadata reserves the right to change the price of items within the catalogue without prior notice.

Product Name	Product Code	Price 1+
Gold FORS Safety Kit – Artic	GOLFORs-AR	£2549.00
Gold FORS Safety Kit – Rigid	GOLFORs-RI	£2499.00

## Transport training

Novadata is one of the leading transport training providers in the UK today. Our fully qualified and friendly expert trainers are all former transport professionals, so they understand how the transport industry works in practice. This gives them a distinct advantage, and an extremely helpful and practical approach to learning for transport managers and drivers from both the road haulage and passenger industry sector.

Our courses include Management CPC, Driver CPC, ADR and DGSA. We even have our own OCR approved examination where Management CPC candidates can sit their examinations.

Even seasoned professionals need to brush up their skills on occasion and our Management CPC Refresher courses and Operator Licence Awareness courses help all Operator Licence holders (including Restricted Operators) to fulfil their undertakings and protect their licence and business.

We're happy to advise on any transport training needs and can even deliver training at your own premises for some groups of learners. Find details of all our courses and book online at [www.novadata.co.uk](http://www.novadata.co.uk).

## Tachograph analysis

Novadata was founded over 35 years ago as a tachograph analysis bureau and we still offer the UK's foremost tachograph analysis services today. Whether you use an analogue or a digital tachograph, we provide affordable expert analysis so that you can demonstrate you've complied with the law, or identify any instances when you haven't. We can even marry analogue and digital data together so you can ensure that you can perform drivers' hours calculations and are complying with the working time directive.

With lots of different tachographs on the market, it is essential to ensure that you are using yours correctly – they aren't all the same. We provide expert training courses for managers and drivers to explain how each model works and how to avoid any pitfalls that could result in errors. If you need to repeat your periodic Driver CPC training, we have a course that will teach you about tachograph use and help you to complete your 35 hours.

For more details, visit [www.novadata.co.uk](http://www.novadata.co.uk).

## Transport services

In addition to our renowned tachograph analysis services, we also provide a number of invaluable cost-effective services, tailored to the demands of the transport industry, including a digital tachograph download service.

We provide driving licence checks in the form of Novadata SmartLicence, a comprehensive online tool for managing the driving licences of any member of staff driving on behalf of your company, and our highly affordable Convey Walkaround smartphone-based compliance solution.

Transport companies often find it difficult to spot weaknesses in their own processes, so we offer a full transport systems audit, which highlights any areas which need strengthening in order to achieve and maintain compliance. We also offer assistance for companies wishing to submit to a FORS Audit, helping them to prepare for the scrutiny required to attain FORS membership.

Should you be required to appear at a Public Inquiry, we can offer representation to help you and an expert witness service should you need to present evidence in your defence. Our full list of services is available at [www.novadata.co.uk](http://www.novadata.co.uk).

## Transport products

Over several decades we have developed a range of transport products which aid the transport professional in complying with Operator Licence undertakings and in maintaining a healthy Operator Compliance Risk Score.

The Novadata range of vehicle check and defect report books for both road haulage and passenger transport sectors are designed to take the driver through the correct daily walkaround procedure, while creating a robust record of any defects found, also recording if there were no defects observed. We also provide maintenance inspection record books to help ensure that vehicles are kept in a roadworthy condition, and a book of operator compliance record sheets to help maintain a good OCRS score.

We provide digital and analogue tachograph products including digital readers, download equipment, software, storage wallets and consumables.

Also available are ADR equipment kits, hazardous chemicals products, first aid kits, course materials, wallcharts, DVDs and a range of other specialist products designed to aid the busy transport professional. Order online at [www.novadata.co.uk](http://www.novadata.co.uk) or call 01376 552999.
